Welcome

KNOW OUR BUSINESS

Welcome to new and improved Prefabricated Technology SERVICES COMPANY. We appreciate we continued commitment to the company and our growth. We are confident we can make this mutually rewarding.

Our reputation is our most treasured asset and the foundation on which we have built our company. Everyone at ecofab knows that the only way to protect and improve our reputation is to exceed the client's expectations, meet our commitments, innovate in our business and deliver excellence (as our we says "Excellence. Delivered.").

By understanding, and embracing our clients' problems, vision, project objectives and goals, we will be able to build stronger and lasting relationships that will yield long term results. The client will start to look at us as their trusted advisor.

One of our major achievements in the past year has been our ability to settle in our new office environment, updated web presence (new websites), stabilize and strengthen our existing client relationships, define and institutionalize operational processes and start conversations with new prospective clients.

01

We recognize the importance of the project initiatives entrusted on us by our clients.

02

We need to ensure we take special care to meet and exceed their business objectives.

03

In order to achieve this we are always investing in our existing people.

04

Improving our culture and work environment through activities and initiatives.

Aims & Objectives

Professional Process & Solutions!

Our major aim is to provide Civil, Steel, Prefab, PEB, Tensile services as per international standards to the people of Pakistan.

OUR WORK METHOD

The ECOFAB Tech (Pvt) Ltd. have experience in the field of designing, manufacturing fabrication and construction. We are dedicated to maintaining a strong, committed management team, supported by a staff of highly competent qualified engineers and specialists. Combined with the flexibility and readiness to incorporate and utilize changing and challenging environments.

Our Group has always operated with the aim of enabling the country to grow economically by providing essential services to the country's industries, and its combination of instinctive entrepreneurship and diversity of activity will stand it in good stead for years to come.

The objective should be challenging, BUT it SHOULD also be able to be achieved by the RESOURCES available. The ecofab tech industry started its activities from Twin cities Rawalpindi/Islamabad Pakistan. Its young management with senior expertise, and collective experience of more than 25 years in the field of fiber glass composites, steel structures and Building constructions.

We have completed different projects in both Domestic and industrial sector here and abroad. We have established good reputation in manufacturing of Civil, Steel, Prefab, PEB, Tensile Works and building blocks in civil and army sector. Ecofab Tech has been serving the public since 2000 when we opened our truss factor ISLAMABAD. Since we manufacture our own trusses from Pakistan-made steel, Ecofab Tech can be designed for any snow or wind load in the Pakistan. All of our trusses are welded in precision jigs for accuracy, double dipped in a rust proof coating and then inspected to insure that when they get to you they are of the highest quality.

VISION

Our major aim is to provide Civil, Steel, Prefab, PEB, Tensile Works and building construction services as per international standards to the people of Pakistan. The Ecofab Tech industry was established with the prime objective of contributing valuable services towards the development and advancement of the fiber re-inforced polyester industry in Pakistan.

Professionalism:

We believe a high level of professionalism to achieve and maintain high levels of expertise and skills.

MISSION

Staying Ahead of the Competition. Getting and Staying Profitable. Productivity of People and Resources. Quality and performances.

VISION

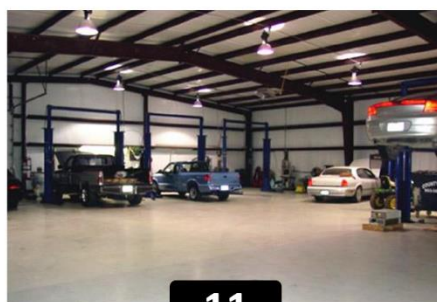

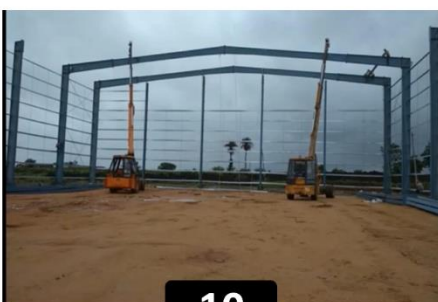

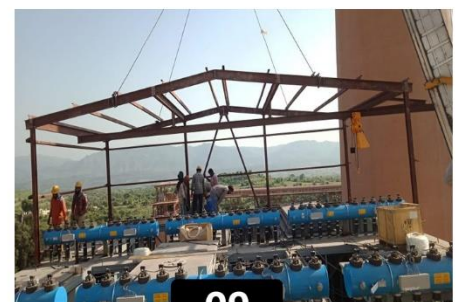

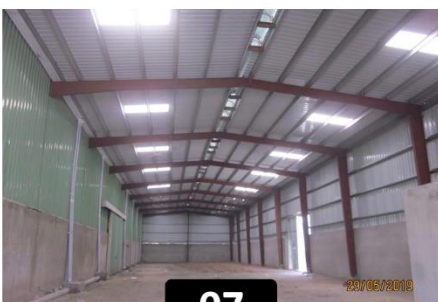

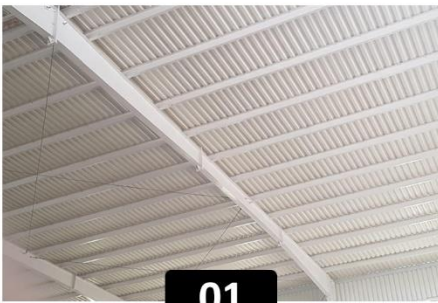

Our Group has always operated with the aim of enabling the country to grow economically by providing essential services to the country's. Safety Health and Environment

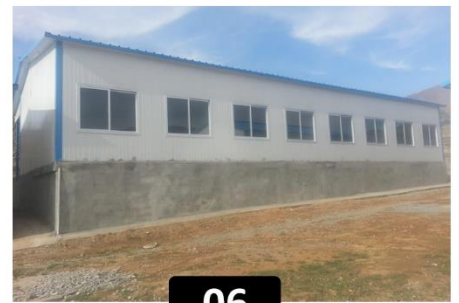

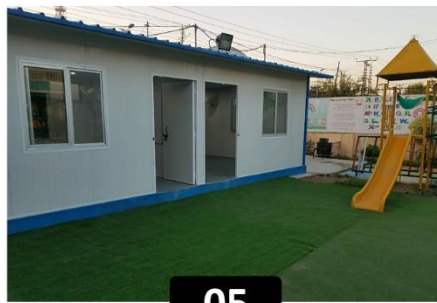

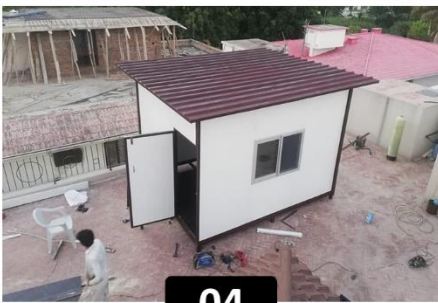

VALUES

We drew up the Values in order to ensure the Excellent Customer Service, Sustainable Growth and to earn client Trust and Satisfaction.

Our Project

Professional Process & Solutions!

Metal buildings are an ideal solution for both residential and commercial needs. While they are less expensive and easier to install than traditional building styles, they are actually among the strongest and most durable building solutions on the market.

STEEL BUILDING

ECOFAB TECH is an extremely dynamic company led by pioneers of Pre-Engineered Steel Buildings in Pakistan with almost 20 years of experience. Focusing particularly on design, manufacture, and installation of solutions - from the simplest to the most sophisticated by using state of the art design software's.

AGRICULTURE STEEL BUILDING

ECOFAB TECH has manufactured steel and metal agricultural and farm buildings for more than 30 years. Our buildings are manufactured to meet your needs for a barn, hay storage, machine storage, or any other type of agricultural needs you may have.

AIR CRAFT HANGARS

ECOFAB TECH understands the importance of protecting your investment as an owner of an aircraft. Avoiding damage by Mother Nature and simple depreciation from exposure are key. Ecofab produces the strongest metal and steel buildings available, and have never experienced any aircraft damage due to steel building failure.

Steel Structure of Mosque

Ecofab Tech offers mosque steel structure that are both affordable and extremely aesthetic.

Gambrel Style Steel Building

Ecofab Tech Services' Gambrel steel barn design a great choice when you're looking for that classic looks.

Steel Garage & Workshop Kit

Our custom steel building kits allow you to customize and finish off your steel building to your specifications.

Steel Building Greenhouse

Ecofab supplies custom greenhouse building kits that can be adapted to any climate and conditions.

Metal Building Kit

Ecofab Tech is a leading provider of metal buildings in the United States, offering metal building materials.

Rigid Frames

We are dedicated to bringing our customers the best value in their steel building needs.
